

Forsythe II Multiparty Monitoring Group (MMG)
July 22, 2019 – 6:00 PM to 8:30 PM
MEETING AGENDA
MPR Room, Nederland Community Center
750 CO-72, Nederland, CO, 80466

6:00 PM Welcome and Introductions

6:05 PM Review of Mixed Conifer Field Trip

- Wildlife corridors
- Slash/wildlife piles
- Clarification of how increased slash from treatments affects prescribed burns

6:25 PM Timeline and Avenza Updates

- Summary of Avenza points for Phase 3 and 4
- USFS incorporation of Avenza points into existing prescriptions
- Joint-monitoring efforts for Phase I and II
- Upcoming CFRI ecological monitoring
- Other timeline considerations?

6:45 PM Landscape-Scale Discussion: Lodgepole Pine

- What variables can be considered and influenced in treatments (e.g., treatment size, location, timing, and sequencing; replanting; manual vs. mechanical, etc.)?
- What types of treatments are appropriate?
- What are the objectives specific to these units?
- How can fire be best reintroduced in areas with this cover type?
- Discussion of cumulative impacts

8:15 PM Next Steps

- Field trip location suggestions (focus on lodgepole pine)
- Agenda/approach for September meeting

8:30 PM ADJOURN
